JC09 Rec'd PCT/PTO 14 OCT 2009

## UNITED STATES PATENT AND TRADEMARK OFFICE

|                                                                                     |   |                      |
|-------------------------------------------------------------------------------------|---|----------------------|
| In re the application of                                                            | ) | Mail Stop:           |
|                                                                                     | ) |                      |
| FOETTINGER, Klaus                                                                   | ) | Art Unit: unassigned |
|                                                                                     | ) |                      |
| Serial No.: unassigned                                                              | ) | Examiner: unassigned |
|                                                                                     | ) |                      |
| Filing under 371(c) Date: to be filed                                               | ) |                      |
|                                                                                     | ) |                      |
| For: CATALYST SYSTEMS OF THE ZIEGLER-NATTA TYPE AND A PROCESS<br>FOR PREPARING THEM |   |                      |

Honorable Commissioner for  
Patents and Trademarks  
Alexandria, VA 22313-1450

**PRELIMINARY AMENDMENT**

Sir:

Prior to the examination, kindly amend the above-identified application as followed.

**REMARKS**

Claims 3-6, claim 8, 10, and claims 12-13 are currently amended to eliminate multiple dependencies, as shown in the attached sheet.

Please charge any shortage in fees due in connection with the filing of this paper, including Extension of Time fees, to Deposit Account No. 14.1437. Please credit any excess fees to such deposit account.

Respectfully submitted,  
NOVAK DRUCE DELUCA & QUIGG, LLP
